

University of Wisconsin-Stevens Point

College of Natural Resources

Dear Musky Clubs Alliance,

I am honored and grateful to receive the Musky Clubs Alliance of Wisconsin, Inc. Scholarship. Your kind support means a great deal to me. Thank you for choosing me to receive this scholarship. This generous award allows me to continue pursuing my bachelor's degree at the University of Wisconsin-Stevens Point. Currently, I am enrolled as a Fisheries and Water Resources – Hydrology major and anticipate graduating in 2027.

This scholarship is important to me because it alleviates some of the financial burden of working on my college education. This support lessens the emotional and financial stress of a degree, so I will be able to better focus on my academic pursuits and developing workplace skills that will prepare me for a job after graduation. When I graduate, I hope to work as a GIS specialist focusing on natural resources.

Sincerely,

Evelyn Good
