

University of Wisconsin-Stevens Point

College of Natural Resources

Dear Musky Clubs Alliance:

Thank you for making this scholarship available. I am honored to be a selected recipient of the Musky Clubs Alliance of Wisconsin, Inc. Scholarship. I am extremely grateful to receive this scholarship as it will allow me to further pursue my studies in fisheries. This scholarship will help to pay for books as well as reduce stress while pursuing further education.

I have just recently started my second year as a master's student at UWSP studying natural resources while focused in fisheries. I am also a part of the Wisconsin Cooperative Fisheries Research Unit (WICFRU) at Stevens Point and am currently working on my thesis which involves forward facing sonar and the effects on Walleye angler catch rates. I would like to further pursue a PhD involving fisheries so this scholarship will greatly help me achieve that.

Thank you again for your generosity in giving me this scholarship. I hope that in time, I will be able to provide the fisheries world as well as others as much help as I have received.

Sincerely,
Kyle Hintz
